

Easy Clean Mop Starter Kit

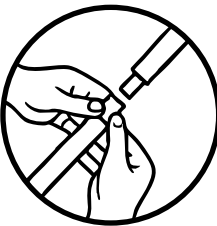

About Easy Clean Mop

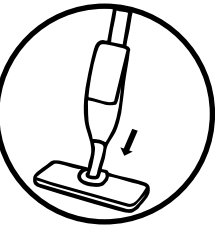

Getting Started

STEP 1

Line up mop handle and click together.

STEP 2

Insert mop head and push hard until it clicks.

STEP 3

Fill reservoir with warm water. Use filtered or distilled water in regions with hard water. Stop at fill line.

STEP 4

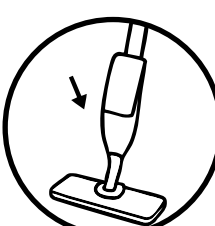

Pour one powder package into warm water.

STEP 5

Ensure lid is snug to avoid spills.

STEP 6

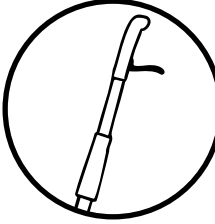

Insert reservoir into mop assembly.

STEP 7

Moisten mop pad with water and wring out well, then attach to mop.

STEP 8

Keep the mop in front of you and at an angle when dispensing cleaner to avoid spraying into flooring bevels.
